## SurroundScan Protector HD Ultra

### Recycling Today Fall Product Preview

DESIGNED TO PROVIDE ENHANCED METAL DETECTION LEVELS The Protector HD Ultra, a heavy-duty industrial grade metal detector is used when an extra level of metal detection performance is required to defend processing equipment, detect fire hazards (such as lithium batteries) and ensure product purity. Advanced Detection Systems' proprietary AccuLearn software, built into every unit, can automatically adjust the detector's sensitivity based on your product's characteristics and detection level requirement.
